PROFESSIONAL EXPERIENCE

- ◆ **Software Analyst, MicahTek** **Broken Arrow, OK, 2025 – Present**
 - Develop, maintain, and troubleshoot software systems using PHP, JavaScript, MySQL, and Universe Basic across a multi-valued database environment, supporting both backend processing and web-based front-end interfaces.
 - Build and enhance e-commerce and call center software solutions, including custom development and configuration within third-party systems.
 - Troubleshoot and enhance legacy code to resolve programming issues across business systems, including calculations, reporting, front-end customization, and call center interfaces.
- ◆ **Commercial Specialist, AutoZone** **Norman + Tulsa, OK, 2023-2025**
 - Supervised commercial drivers and coordinated delivery logistics, including order picking and organization.
 - Arranged inter-store product transfers and alternative pickups to ensure timely fulfillment.
 - Assisted commercial and retail customers with product sales and provided translation support to enhance customer service.
- ◆ **Computer Lab Assistant, OU JRCOE** **Norman, OK, 2020-2022**
 - Diagnosed and resolved hardware and software issues for students and faculty across the college.
 - Managed lab equipment rentals, tracked inventory, and performed maintenance to ensure functionality and availability.
- ◆ **Cashier / Lot Associate, The Home Depot** **Owasso, OK, 2018-2022**
 - Delivered exceptional customer service by assisting customers with product location, operating cash registers, translating, and loading purchases for customers.
 - Maintained a safe, clean, and organized environment by ensuring the front end remained orderly and presentable.
